

# FOUNDATION ACCESS CONTROL

46

ACCESS CONTROL COURSES

**Offering a perfect mix of classroom studies and practical workshop activities**, this popular course investigates the combination of physical elements and electronic devices that make up the modern world of access control.

## COURSE CONTENT

- ▶ Mechanical and electronic locks
- ▶ Passive and active non-contact identification methods
- ▶ Programming and commissioning access control systems
- ▶ IP and networking access
- ▶ Cabling and power for various environmental situations
- ▶ Legislation, Standards, Inspectorates, health and safety and documentation
- ▶ Stand alone and multi door configurations
- ▶ Recognition methods: readers and code identification
- ▶ Controllers systems and card based ID systems
- ▶ Physical considerations of locks and doors

Brilliant, what a well presented course.
