

# CCTV OVER IP

28

IP AND NETWORKING COURSES

## This course provides an understanding of the fundamentals required in deploying an IP CCTV security system.

The course will offer a blend of essential theory with "hands on" practical sessions, which will give the necessary skills to successfully install, configure and test an IP CCTV system.

### COURSE CONTENT

- ▶ Migration from analogue to digital
- ▶ Digital video explained
- ▶ Video compression engines
- ▶ Foundations of IP
- ▶ Networking principles
- ▶ TCP/UDP explained
- ▶ Demonstrations of mobile applications
- ▶ Recording solutions
- ▶ Practical networking sessions
- ▶ Configuring CCTV IP products

A difficult topic to cover in just 3 days - excellent presentation and explained at all levels.
