

CODE: CRO5

GATHERING VIDEO EVIDENCE

This course has been developed with the police, Home Office and transport companies to provide the necessary understanding of how digital footage can be effectively exported and used within our legal system. A classic combination of 'need to know' classroom theory supported by practical sessions in the workshops.

COURSE CONTENT

- ▶ The fundamentals of CCTV
- ▶ Handling video and data storage media
- ▶ Compression engines
- ▶ Basic networking principles
- ▶ Fit for purpose explained
- ▶ Extracting video - a practical view
- ▶ The operational requirement
- ▶ Evidential criteria and audit trails
- ▶ Data protection issues
- ▶ Legal considerations for CCTV

Professional training with excellent knowledgeable staff.
