FIRE ALARM COURSES

This three day course combines theory and practical exercises and is suited to individuals or security companies requiring an understanding and fundamental skills to recommend, upgrade or fully install fire alarm equipment.

COURSE CONTENT

- ▶ Fire classifications
- ▶ Fire Legislation, Standards and governing bodies
- ▶ Fire risk assessment
- ▶ Role of the responsible person and fire officer
- ▶ Fire alarm system types and levels of protection
- ▶ Detection devices and their applications
- ▶ Basic installation of fire alarm systems
- ▶ System documentation requirements
- ▶ Basic commissioning requirements
- ▶ Service and maintenance of fire alarm systems

I would recommend this course to anyone going into fire.
